Breeder Profile Pages

What do your customers find when they search your name on the Web? Are people asking you about negative things that aren't even about you, but still showing up online because of someone has a similar name? Are you frustrated by this? ***We can help with a personal Profile Page on GFP.*** Why not have the first search result for you be one directing the potential buyer to a page listing your testimonials and showing your puppies! If you are a good breeder and sell healthy puppies, we will help you get the exposure you deserve, not only for your puppies, but for your breeding practices as well.

Breeders with Profiles will be able to:

- *List their available puppies on their page*
- *Have a list of all their customer testimonials on their page.*
- *List accreditations (ACA Star Breeder, Greenfield Certification) as well as a description of themselves as a breeder.*

We are offering this service for a modest **\$99.95** per year for breeders who would like to participate. You can contact us at 717-826-9054 and select option 6 to get more information to-day!

Testimonials about Jake Stoltzfus

2/14/2016

Four months after losing our beloved Bichpoo Mia, we decided there was a void in our family that needed to be filled. After surfing the internet, I stumbled upon the Greenfield Puppy website. I found an adorable Bichpoo and contacted the breeder, Jake Stoltzfus. Unfortunately, that puppy had already found a forever home. Jake took my contact information and we agreed that he would let me know if he had a female Bichpoo available in the future. I was so excited to hear from Jake in early September. Our little girl had been born. Jake was so kind to send us pictures to help our eight-week wait go by quicker. On a rainy and foggy day we drove six hours to pick up our Lili. She was a little ball of cuteness. She snuggled on my lap during the ride home. We took her to our veterinarian the next day and he said she was in excellent health. This Thanksgiving we are thankful for our new puppy, Lili. She is happy, loved and ready to face the cold winter weather in her new pink coat! Thank you, Jake Stoltzfus!

“The Whelping Den”

Studies show that the first two weeks of a puppy's life are the most critical time in development of hips & legs, and by using a tapered bottom with carpet it **greatly reduces hip dysplasia**.

Did you know that 30% of puppies die before weaning due to poor heat source?
